Comments _____

At time of measure:

- Designer or homeowner must be present to make decisions.
- All Cabinets, including end panels, supports and brackets, must be permanently installed.
- All final selections should have been made - color, edge, appliances.
- Sinks and faucets must be on site. Front-apron or farm sinks must be installed for measure.
- Undermount sink template must be on site.

AMC fabricates sink cut outs according to the template provided by the manufacturer and no alterations will be made.

At time of installation:

- An adult decision-maker must be present.
- Sinks, faucets and appliances that go on the tops must be in the room.
- Plumbing must be disconnected, old countertops must be removed, dishwasher must be unpacked and set in place.
