

UNDERMOUNTS *BY REVERE*

Revere sinks enhance the splendor of countertop materials. By creating a fluid, graceful line, a Revere undermount sink complements a countertop while delivering years of outstanding performance.

Do not minimize the beauty of a new countertop by choosing a low-grade sink. Revere sinks are made of 18 gauge stainless steel for superior durability (the lower the gauge number the thicker the steel). The combination of full undercoating and a sound dampening pad absorbs sound, reduces condensation and maintains water temperature. With its graceful lines and satin finish, a Revere undermount sink is an ideal match for all countertop materials. **Remember, an undermount sink will be a permanent installation. Choose wisely!**

Revere undermounts offer **Quality**, **Availability** and **Value** for all your application needs.

QUALITY

We use only 18 gauge nickel bearing stainless steel that assures the long term durability of Revere stainless steel sinks. Our satin finish matches the integrity of your countertop design ensuring your customer's complete satisfaction with the installation.

AVAILABILITY

Because Revere sinks are in stock and readily available, you can have the confidence that the sink will be there when you need it. Revere offers a complete product line of sinks, faucets and complementary accessories that will offer your customers the choices they are looking for.

VALUE

Revere sinks add value to your countertop installation with the attention to detail we put into every sink we make. The sink below the countertop is just as important as the top it is installed in – **choose Revere for a winning combination!**

**All undermount sinks are available nested 10 units per shipping carton or individually boxed.*
